Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS	THINKS
“I need to know quickly if my loan will be approved.” “The paperwork and waiting time is frustrating.” “I want a fair and unbiased decision.”	“Will my income and credit history be enough?” “Can I trust an automated system with this decision?” “How can I improve my chances of approval?”
PERSONA Loan Applicant (Salaried / Self-Employed)	
DOES	FEELS
- Compares loan offers across different banks. - Gathers salary slips, credit reports and property documents. - Follows up repeatedly with the loan officer for status updates.	- Anxious about rejection and financial planning. - Hopeful about getting funds for a home, business or education. - Relieved once a clear, timely decision is communicated.
