Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions (What does the customer do?)	Opens the Smart Lender web application Enters personal, income and loan details Clicks 'Predict Loan Eligibility'	Model encodes and scales the input KNN classifier computes prediction Confidence score and risk level calculated	Views prediction result (Approved/Rejected) Reviews applicant summary and recommendation Repeats prediction or proceeds with application
Touchpoint (What part of the service do they interact with?)	Web browser Loan application form (index.html) Input fields for income, credit history, etc.	Flask server (/predict route) Trained ML model & preprocessors Prediction engine	Result page (result.html) Prediction status & confidence bar Recommendation message
Customer Feeling (What is the customer feeling?)	Curious Slightly anxious about entering financial details Hopeful for a fast decision	Expectant Trusting the automated process Waiting for the outcome	Relieved (Approved) Concerned (Rejected) Informed about next steps
Process Ownership (Who is in the lead on this?)	Applicant	Smart Lender AI System	Applicant & Loan Officer
